

Project Overview

As of March 20, 2012

Street Resurfacing 2011 Program – Project 5

Description and Benefits: Street resurfacing improves ride quality, reduces street maintenance expenses and serves as a means of renewing and prolonging the life of roads and highways. The work consists of milling the existing pavement, overlaying with new asphalt and replacing curbs and sidewalks, only as necessary, in order to accommodate new *Americans with Disabilities Act*-compliant curb ramps. Plans call for partial depth pavement repair only as needed.

Fifty-five percent of typical project costs go toward resurfacing, partial/full depth pavement repairs and curb repairs; 35% for curb ramps and 10% for construction inspection.

Schedule:

Construction and inspections

Start

autumn 2011

Completion

spring 2012

Status:

Construction in progress.

Contact Information:

Construction Project Manager: Steve Wasosky, P.E., tel. (614) 645-3183

Designer: City of Columbus
